**Items No. 15 and 16  
Attachment to Application to Change**

**Applicant: Desert Pearl Farms, LLC**

**Item No. 15 - Provide a detailed description of the proposed project and its water usage (use attachments if necessary):**

Portions of the proposed place of use under this application have historically been irrigated by Walker River Decree Claims 2 and 138 and portions of supplemental underground Permit No. 19599, Certificate 5997. Upon approval of Temporary Application Nos. 82638-T, 82639-T, 82640-T, 82641-T, and 82642-T, these existing groundwater rights will not be exercised for irrigation purposes within the proposed place of use for the 2016 irrigation season. Walker River Decreed Claims 2 and 138, storage surface rights and supplemental underground Permit No. 19599, Certificate 5997, are owned by the National Fish and Wildlife Foundation, and are intended to be stripped upon U.S. District Court approval of Permit No. 80700.

Permit No. 29621, Certificate 9222, was approved as a "primary stand-alone" water right. The Desert Pearl Farms, LLC, is filing this application with the intent to use this water as "primary - stand alone" groundwater within the proposed place of use.

The total area of the proposed place of use, being Lyon County Assessor's Parcel Nos. 014-321-30 and 014-321-31, is approximately 356.27 acres. Applications to change primary stand-alone groundwater under a portion of Permit Nos. 29621, Certificate 9222, and 72402, and all of Permit Nos. 67210, 67599, 76192 and 77719, is being moved within the proposed place of use for the irrigation of 186.582 acres.

These applications propose to change the point of diversion to an existing well drilled under Permit No. 19599, Certificate 5997.
